

# CARE & MAINTENANCE

Advanced Flooring Waterproof TriCore™ and Water Resistant LVP products are engineered to withstand scratches and dents from everyday living. Additionally our UV cured wear layer with DiamondGuard™ protection gives Advanced Flooring Concepts stain resistance and makes them easy to care for. A perfect for today's busy lifestyles.

At Advanced Flooring Concepts, our mission is simple: make good floors better!

If you follow the steps below your floor will look good as new for years to come.

Good Practices	Bad Practices
✓ Sweeping the floor regularly with a soft bristle broom to remove loose dirt and grit.	✗ The use of harsh cleaning chemicals such as bleach.
✓ Only using a PH-Neutral cleaner.	✗ Using steam.
✓ Wiping the floor with a microfiber cloth or a damp mop.	✗ Dragging, pushing, or pulling the furniture across the floor.
✓ Cleaning up spills as quickly as possible and rinsing with water.	✗ Using a vacuum with a rotating beater bar.
✓ Lifting and carrying the furniture.	✗ Over saturating the floor with cleaner or water.
✓ Using protective pads.	
✓ Using walk-off mats for extra protection.
